

Stewards Sports and Armored Up “The App” are excited to be teaming up with EASI to help Serve the community. With practices and games on hold right now we are hopeful to connect the Coaches, Players and Families together through Instructional videos. We will be sharing three Instructional videos from the Armored Up App each week. Coaches will be able to download the Armored Up App and assign specific drills for their team to follow along with every few days/weekly. Players will have the chance to gain a much deeper understanding thorough the App as well as have access to 100+ Drills. The Armory section of the App has stacked up drills to highlight specific movements of the game from Hitting, Fielding and Pitching. We understand Baseball/Softball may be last thing on your mind, but we also know the peace that throwing and hitting the ball around with the family can bring and we are here to assist you.

EASI and The Armored Up app want to help as we know families are in need off the Diamond as well. We will be donating \$10 with every purchase of the Armored Up Apps (yearly subscription) option to Hope Center of Edmond.

Please keep the Faith and know the storm will Calm.
